Grange hall was well filled on the evening of Thursday, the 11th instant, the occasion being the first evening of the annual fair, now an event in the doings of the local grange. Preparations had been going on for several days and the hall was decorated and booths erected in readiness for the fair, which opened on the afternoon of the 11th. The quantity of vegetables shown was not so large as in some previous years, but was sufficiently attractive to compel the attention of all in the hall at some time during the evening. At the domestic booth aprons of varying sorts and sizes were the principal feature and several bed quilts were also displayed. Various kinds of fancy work were to be found at the adjoining booth, while across the hall was the postoffice, well stocked with mail and a corner devoted to the popping and sale of corn.

A musical and literary entertainment was given in the evening, those taking part coming from Barre, Berlin and Brookfield. The readers were Dr. Frank M. Lynde of Barre and Miss Ruie Angell of East Brookfield, both of whom were obliged to respond to encores. In fact encores became a habit soon after the opening number and the audience made no secret of the pleasure given by the selections rendered. Those taking part in the musical numbers of the program were Mrs. Minnie S. Allen and daughter, Miss Mary Allen, and son, Stanley Marsh. From Berlin came Mr. and Mrs. Wilbur Brown and Arthur Brown, while from Brookfield came Mr.

and Mrs. J. M. Angell and five girls, who sang the "Song of the Red Cross." All these women and several others contributed to the making up of the audience. The fair is to be continued this (Saturday) evening, when a hash supper will be served from 5 to 8 o'clock, followed by an entertainment by local talent and the sale at auction of the goods remaining on hand.

The Birthday Social club met with Forrest C. Seaver last Wednesday and showed a neighborly spirit by helping out their host by digging over 100 bushels of potatoes for him. Not to be outdone by the men, the women of the club showed their good will after the dinner dishes were cleared away by tying a puff for Mrs. Seaver. Nearly 20 people took part in these events, which greatly cheered Mr. Seaver, who was lately injured by falling from an apple tree, since which time he has been unable to do work of any kind.

The name of Mason S. Stone is among those suggested as a likely man for the secretaryship of the state fuel commission. It will require a man who can give a major portion of his time, at least, for the present, to the duties until the organization is completed. He will have to answer many inquiries relative to the intent of the regulations. Mr. Stone is now engaged in publicity work for the public safety committee of the state.

Insurance Commissioner J. G. Brown left last evening for Boston on matters connected with his department.

A. E. White has returned from Woonsocket, R. I., where he attended the state council meeting of the J. O. U. A. M., at which he saw a class of 46 candidates initiated.

Mrs. Homer Flint of Crafton, Pa., has been visiting relatives here and to-day went to Northfield.

Montpelier appears to be doing its share toward the second Liberty loan, about \$365,000 of the quota having already been subscribed, so that those who are working on the campaign may feel that it will come although probably not as fast as it did on the first loan, because conditions are different than at that time. The quota of the city is about \$450,000.

Henry Lord Norton, who has completed three years' service in the Canadian, Belgian and English armies in Belgium and France, has passed his examination for

major in the U. S. army and left to-day for Camp Meade at Annapolis, Md., where he has been assigned to duty with the 23d regiment of engineers, which it is expected will soon be on its way to France. Loves Carbon ---Hates the Repair Shop

Most repair jobs are motor jobs.

And most of the motor jobs have to do with cleaning carbon and grinding valves.

All over the length and breadth of the land, impatient owners are doing without cars that are out of commission because of carbon troubles.

But the 12,000 owners who bought Willys-Knights last year do not know what carbon troubles mean—never lose a day's use of their cars on account of carbon—never have to drive a carbon-crippled motor.

To them, carbon, the destroyer, is carbon, the rebuilder.

Wouldn't you like to drive a motor that improves with use?

The British "tanks" are Knight-motored.

The Hotel La Salle, Chicago, has installed a fleet of 55 Willys-Knight taxicabs.

The London Omnibus Company before the war was using 3,600 Knight-motored busses on the streets of London.

Five hundred Knight-motored busses are being used in New York by the Fifth Avenue Bus Co.
